

# Live Your Light!

## Plan It Right — 2010

The planning grid below maps out twelve areas of life, based on the astrological houses.

- Set aside some sacred time to set your sights on what it will take to live your full radiant light this year.
- Then write in your visions, plans, goals and intentions as they relate to these different areas of life.
- If there's an overarching theme you're working with this year, write that in the flower at the center.
- Put your grid on your altar or some place you can see it often. Keep your eyes on the prize!
